## Ed Ruscha: Catalogue Raisonné of the Paintings Volume Six

This sixth volume of *Edward Ruscha: Catalogue Raisonné of the Paintings* documents the 227 paintings and studies for paintings made between 1998 and 2003. Though a number of these works refer in some degree to Ruscha's output of the past two decades, the period inaugurates two major series--the *Metro Plots*, which diagram streets in Los Angeles and American cities, and the celebrated *Mountain* paintings. A third series, loosely grouped, takes books as its subject. This period is also notable for the appearance of the first of the *Course of Empire* paintings, with which the artist would represent the United States at the 51st Venice Biennale in 2005. As in previous volumes, included are numerous documentary photographs, a selection of Ruscha's sketchbook pages and complete bibliographic references and exhibition histories.
