Juan M. Morales, Antonio J. Conejo, Henrik Madsen, Pierre Pinson, Marco Zugno

Integrating Renewables in Electricity Markets: Operational Problems (International Series in Operations Research & Management Science) Juan M. Morales, Antonio J. Conejo, Henrik Madsen, Pierre Pinson, Marco Zugno

This addition to the ISOR series addresses the analytics of the operations of electric energy systems with increasing penetration of stochastic renewable production facilities, such as wind- and solar-based generation units.

As stochastic renewable production units become ubiquitous throughout electric energy systems, an increasing level of flexible backup provided by non-stochastic units and other system agents is needed if supply security and quality are to be maintained.

Within the context above, this book provides up-to-date analytical tools to address challenging operational problems such as:

- The modeling and forecasting of stochastic renewable power production.
- The characterization of the impact of renewable production on market outcomes.
- The clearing of electricity markets with high penetration of stochastic renewable units.
- The development of mechanisms to counteract the variability and unpredictability of stochastic renewable units so that supply security is not at risk.
- The trading of the electric energy produced by stochastic renewable producers.
- The association of a number of electricity production facilities, stochastic and others, to increase their competitive edge in the electricity market.
- The development of procedures to enable demand response and to facilitate the integration of stochastic renewable units.

This book is written in a modular and tutorial manner and includes many illustrative examples to facilitate its comprehension. It is intended for advanced undergraduate and graduate students in the fields of electric energy systems, applied mathematics and economics. Practitioners in the electric energy sector will benefit as well from the concepts and techniques explained in this book.

From reader reviews:

John Oliver:

The book Integrating Renewables in Electricity Markets: Operational Problems (International Series in Operations Research & Management Science) make you feel enjoy for your spare time. You may use to make your capable a lot more increase. Book can to be your best friend when you getting anxiety or having big problem with your subject. If you can make examining a book Integrating Renewables in Electricity Markets: Operational Problems (International Series in Operations Research & Management Science) to be your habit, you can get more advantages, like add your current capable, increase your knowledge about several or all subjects. You can know everything if you like available and read a book Integrating Renewables in Electricity Markets: Operational Problems (International Series in Operations Research & Management Science). Kinds of book are a lot of. It means that, science guide or encyclopedia or other individuals. So , how do you think about this reserve?

Calvin Cline:

Playing with family in a park, coming to see the marine world or hanging out with good friends is thing that usually you will have done when you have spare time, subsequently why you don't try factor that really opposite from that. One activity that make you not experiencing tired but still relaxing, trilling like on roller coaster you have been ride on and with addition of information. Even you love Integrating Renewables in Electricity Markets: Operational Problems (International Series in Operations Research & Management Science), you may enjoy both. It is very good combination right, you still wish to miss it? What kind of hang type is it? Oh seriously its mind hangout people. What? Still don't understand it, oh come on its referred to as reading friends.

Barbara Wheat:

Reading a book for being new life style in this yr; every people loves to study a book. When you examine a book you can get a wide range of benefit. When you read publications, you can improve your knowledge, since book has a lot of information in it. The information that you will get depend on what kinds of book that you have read. If you need to get information about your review, you can read education books, but if you want to entertain yourself look for a fiction books, this kind of us novel, comics, and soon. The Integrating Renewables in Electricity Markets: Operational Problems (International Series in Operations Research & Management Science) provide you with new experience in reading through a book.

Ivan Dinkel:

You will get this Integrating Renewables in Electricity Markets: Operational Problems (International Series in Operations Research & Management Science) by check out the bookstore or Mall. Simply viewing or reviewing it could to be your solve problem if you get difficulties for the knowledge. Kinds of this e-book

are various. Not only by written or printed but can you enjoy this book by e-book. In the modern era including now, you just looking by your mobile phone and searching what their problem. Right now, choose your own ways to get more information about your publication. It is most important to arrange yourself to make your knowledge are still upgrade. Let's try to choose appropriate ways for you.
