Have you been wondering why some things happening on our planet are just plain wrong, yet nothing is done about it?. How common sense seems to be disappearing. How the political correctness police is telling us what we can and cannot say. How we all seem to be losing our identities. What the true goals of 'Globalization' are. How the media is dumbing us down with garbage programming. This shocking book exposes what is going on behind the scenes. Why we are headed towards a new world order where we will all be more and more alike. How the 'powers that be' control governments, the media and international crime. But even more disturbing is that controlling these puppet masters is an even greater force, one that is not from earth. The recommended reading list alone is worth the purchase price of the book as the author lists the best esoteric and scientific books he has come across during the last 30 years. Warning: Reading this book may change your perception of reality forever!
