Suicidal Mis-pimping: Egomaniacal Suicide Missionaries Decoded Eric Culpepper

Suicidal Mis-pimping: Egomaniacal Suicide Missionaries Decoded is a "Macabre Classic" that is an extremely witty, informative, and micro-surgically precise work of pimpnological analysis that is all about understanding the true core internal dynamics of human trafficking and the mindsets, psychologies and behavioral profiles of individuals who engage in this mortally self-destructive way of life. People invariably get into serious trouble and suffer tremendous setbacks for what they absolutely are not aware of, much like poison, fire and traffic safety the more that we understand about pandering and prostitution the fewer problems that we will have with them. Pimping is in fact a form of sexual militancy that is so deadly that it doesn't come recommended, even by pimps. A pimp is a manager of individuals who are determinedly deadlocked into extremely self-destructive totally uncontrollable anxiety induced holding patterns who is invariably empowered through a precipitated state of emergency and a pimp's true core primary products are ultimately anxiety, spite, counter-demoralization and counter-victimization. At its core, Suicidal Mis-pimping is a work of brutally honest real world insight that has been composed in the sincere interest of helping everyone from aspiring pimps to at risk youth to marginalized women to law enforcement agents clearly understand the true core internal dynamics, intricate complexities, deadly omen and tremendous costs and consequences of engaging in pandering, prostitution and other forms of hustling and fast life.
