## Secrets of Heaven, Vol. 2: The Portable New Century Edition EMANUEL SWEDENBORG

*Secrets of Heaven* is Emanuel Swedenborg's magnum opus, a fifteen-volume work that delves into the inner, spiritual meaning of the Bible. Starting from the first verse, Swedenborg goes through Genesis and Exodus verse by verse, sometimes word by word, uncovering the fascinating teachings behind the literal account. By doing careful comparison of passages and tracing individual images and motifs through the Bible, he demonstrates that it contains a profound, coherent, and unified inner meaning.

The second volume covers Genesis 9–15, beginning with God's covenant with Noah following the Flood and then following the familiar story of the patriarch Abraham. In the process, Swedenborg discusses the concept of regeneration, or spiritual rebirth, and describes the way the people act before and after rebirth. He also talks about an epoch of human history that he calls the ancient church and the spiritual state of the people in that church. Interspersed with the biblical commentary are chapters on related topics such as the lives of angels in heaven, how distance and time work in the spiritual world, and the nature of hell.

*Secrets of Heaven* provides essential insight into Swedenborg's theology and lays the groundwork for the rest of his writings. This new translation, part of the New Century Edition series, makes his insights into Scripture and his accounts of his spiritual experiences more accessible than ever before.
