Communication Rights and Social Justice: Historical Accounts of Transnational Mobilizations (Global Transformations in Media and Communication Research)

Communication Rights and Social Justice: Historical Accounts of Transnational Mobilizations (Global Transformations in Media and Communication Research)

Communication Rights and Social Justice offers historical perspectives on struggles to use the instruments of state and political participation - power, inter-governmental treaties and declarations, and various forms of political advocacy and protest politics - to articulate the concept of communication as a fundamental right. The contributions make up an intergenerational and multi-vocal dialogue. Different generations of scholars, activists and practitioners, who have been engaged with mobilizations at different times, present their views; some adopt a more academic style, others reflect autobiographically on personal experiences. The collection acknowledges the plural geo-cultural roots that compose what have eventually become a network of transnational mobilization dynamics that are increasingly global, digitally mediated, multi-stakeholder and faced by new and forthcoming challenges. It makes an original and welcome contribution to understanding a vital history that will only grow in worldwide importance.
