Apocalypse 2073 (Volume 1) "The Prophecy" Parker James

The Apocalypse; Doomsday; Armageddon. It had been called so many things, always an ever-present possibility in the back of mankind's collective psyche. Our story begins in the far distant future; Erin Conyers suspended in animation for over 52 years, farther out in space than any had ever before been. Ten years prior to the catastrophe that changed the face of the planet forever, mankind had been forewarned by an unknown intelligence of an impending disaster. One of the relatively few to survive, these are her remembrances of those very dark days, when the world collapsed in a hail of nuclear destruction occurring on an unimaginable scale.
