Finally Understanding Fluids and Electrolytes: Audio CD-ROM Marlene Hurst

These three audio CDs, including a 30+-page worksheet insert, present a Fluids and Electrolytes review in a uniquely easy-to-understand format. The material for this audio review is derived from the Hurst Review, a popular NCLEX course presented across the United States. The speaker's dynamic presentation makes learning fun and memorable, and her use of real-life scenarios increases students' comprehension of this difficult subject.

The CDs progress from a basic review to advanced content on fluids, electrolytes, acid-base balance, and the four major imbalances. An assessment section fosters critical thinking. The insert includes a fill-in-the-blank section to test comprehension.
