## **Tsaoism: A simple guide to understanding children and adults** Thomas Tsao

Tsaoism is a simple guide to understanding children and relationships, not a work about some new Eastern religion or a New Age personal philosophy! It is about human behavior and why human beings behave so predictably. It is not meant to be some self-help manual, but it might be that, particularly if you have children to raise. It is essentially Psychiatry 101 made simple and understandable for the average, normal person, whatever “normal” may be. It is meant for professionals and non-professionals alike. It is a peek into the secret sex lives of women and men plus a clear, scientific explanation of the painful male condition “blue balls.” If this hasn’t piqued your curiosity or interest, then I don’t know what will.
