DISCOUNT- Book is reduced from \$4.99 to \$2.99 for a very limited time! PURCHASE of this book also comes with ONE FREE BONUS BOOK (scroll to the end of book at purchase).

Python: First Shot and Learning Python Programming-

If you have ever been curious to learn about coding with Python, this book will teach you what you need to know to get started.

Python is one of the most powerful programming languages out there. You can use it to program just about any kind of app or software program you need, although it isn't always the best choice depending on what you need to do. The reason that so many people prefer Python is that it is designed to use the simplest code in the fewest number of lines possible to get the job done. While not as popular a topic for books and tutorials as some of the better known languages (like C++ or JavaScript), you can use it to program just about anything. And it takes less time to learn and follow because it was designed with simplicity in mind.

With Learn Python Now, you will learn the following:

Python Components

Basic Syntax

Beyond Hello with Strings

Working with functions

Making the most with classes

Exceptions

Handling files and exceptions

Your first program!

Running your first program

Bonus gift for you!

From reader reviews:

Ebony Lower:

Information is provisions for those to get better life, information currently can get by anyone at everywhere. The information can be a knowledge or any news even an issue. What people must be consider any time those information which is in the former life are hard to be find than now is taking seriously which one would work to believe or which one often the resource are convinced. If you find the unstable resource then you obtain it as your main information there will be huge disadvantage for you. All those possibilities will not happen with you if you take Python Programming: Computer Programming with Python, First Shot Beginner's Guide (Coding, JavaScript, C++) (Learning Hacking, Penetration Testing and Coding) as the daily resource information.

Richard Haley:

Reading can called head hangout, why? Because when you find yourself reading a book specially book entitled Python Programming: Computer Programming with Python, First Shot Beginner's Guide (Coding, JavaScript, C++) (Learning Hacking, Penetration Testing and Coding) the mind will drift away trough every dimension, wandering in every single aspect that maybe unfamiliar for but surely might be your mind friends. Imaging every word written in a book then become one type conclusion and explanation in which maybe you never get just before. The Python Programming: Computer Programming with Python, First Shot Beginner's Guide (Coding, JavaScript, C++) (Learning Hacking, Penetration Testing and Coding) giving you another experience more than blown away your head but also giving you useful information for your better life in this era. So now let us teach you the relaxing pattern the following is your body and mind will be pleased when you are finished reading through it, like winning a game. Do you want to try this extraordinary shelling out spare time activity?

Ricardo Kiernan:

This Python Programming: Computer Programming with Python, First Shot Beginner's Guide (Coding, JavaScript, C++) (Learning Hacking, Penetration Testing and Coding) is brand new way for you who has intense curiosity to look for some information since it relief your hunger info. Getting deeper you onto it getting knowledge more you know or you who still having little digest in reading this Python Programming: Computer Programming with Python, First Shot Beginner's Guide (Coding, JavaScript, C++) (Learning Hacking, Penetration Testing and Coding) can be the light food for you personally because the information inside this kind of book is easy to get through anyone. These books develop itself in the form which can be reachable by anyone, sure I mean in the e-book web form. People who think that in reserve form make them feel drowsy even dizzy this guide is the answer. So there isn't any in reading a e-book especially this one. You can find actually looking for. It should be here for a person. So , don't miss it! Just read this e-book type for your better life along with knowledge.

Dona Henry:

As we know that book is vital thing to add our expertise for everything. By a publication we can know everything we would like. A book is a range of written, printed, illustrated as well as blank sheet. Every year seemed to be exactly added. This e-book Python Programming: Computer Programming with Python, First Shot Beginner's Guide (Coding, JavaScript, C++) (Learning Hacking, Penetration Testing and Coding) was filled regarding science. Spend your time to add your knowledge about your scientific disciplines competence. Some people has distinct feel when they reading a book. If you know how big selling point of a book, you can sense enjoy to read a e-book. In the modern era like right now, many ways to get book that you simply wanted.
