Natural Science in Western History (Complete) (v. 1 & 2) Frederick Gregory

Natural Science in Western History provides an up-to-date and comprehensive survey of western science from ancient times through the Enlightenment to the present. Author Frederick Gregory, past president of the History of Science Society, applies his expertise in teaching the history of science to this thorough and visually interesting survey. Numerous photographs and line drawings throughout this dynamic text illustrate some of the more complex scientific principles. Every chapter discusses a philosophical topic in the history of western science, including such topics as science vs. magic, mathematics vs. nature, and evolution vs. natural selection.
