The Harmonial Philosophy Andrew Jackson Davis

Andrew Jackson Davis is one of the most prestigious clairvoyants from the early years of the American Spiritualist movement. As a young man he experimented with a new medium called Magnetism (Hypnosis) and whilst he was in a trance his friends were amazed to find that he could pass on messages from the spirit world. Andrew Jackson Davis has travelled further than any other man into the spirit spheres and enthrals us with tales of the Summerland and what awaits us after our bodies have out lived their time. This compendium of work covers most of his main themes and has been retyped from an original scan to restore it to it's full glory once again. If there are any profits from this book then they will go to providing wells in Africa.
