Nanotechnology to Aid Chemical and Biological Defense (NATO Science for Peace and Security Series A: Chemistry and Biology)

Nanotechnology to Aid Chemical and Biological Defense (NATO Science for Peace and Security Series A: Chemistry and Biology)

This book presents research into chemical, biological, radiological and nuclear (CBRN) defense and environmental security, exploring practical implications of the research. Contributions from a diverse group of international civilian researchers present the latest work on nanotechnology problems in this area, looking at detection, protective technologies, decontamination and threats to environmental security due to bacteriophages and nanomaterials.

Highlights include the potential of Atomic Force Microscopy (AFM) to characterize the nanoscale properties of microbial pathogens, the development of bacteriophage-based therapeutics, prophylactic and diagnostic preparations and their uses in different fields, such as medicine, veterinary, agriculture, food and water safety, amongst others.

Readers may also consider an inexpensive bioassay suited for assessing chemical poisoning in the environment such as the presence of pesticides, sensors to detect ultra-trace quantities of the explosive Pentaerythritol tetranitrate (PETN) using nanotubes and electrochemical sensors to simultaneously detect and reduce the explosive trinitrotoluene (TNT) to 2,4,6-triaminotoluene (TAT) in solution.

This book shows how cooperative research among NATO countries and NATO partners can make a critical contribution to meeting the opportunities and challenges of nanotechnology problems relevant to chemical and biological defense needs. The papers presented here are representative of contributions made to the Advanced Research Workshop (ARW) on September 22-26, 2014 in Antalya, Turkey, to address the NATO SPS Key Priority of Defense against CBRN Agents and Environmental Security.

From reader reviews:

Hattie Leclair:

The ability that you get from Nanotechnology to Aid Chemical and Biological Defense (NATO Science for Peace and Security Series A: Chemistry and Biology) will be the more deep you excavating the information that hide inside the words the more you get considering reading it. It doesn't mean that this book is hard to recognise but Nanotechnology to Aid Chemical and Biological Defense (NATO Science for Peace and Security Series A: Chemistry and Biology) giving you joy feeling of reading. The author conveys their point in certain way that can be understood through anyone who read the idea because the author of this guide is well-known enough. This particular book also makes your own personal vocabulary increase well. It is therefore easy to understand then can go along, both in printed or e-book style are available. We recommend you for having this kind of Nanotechnology to Aid Chemical and Biological Defense (NATO Science for Peace and Security Series A: Chemistry and Biology) instantly.

Michael Medellin:

Would you one of the book lovers? If yes, do you ever feeling doubt when you are in the book store? Attempt to pick one book that you find out the inside because don't determine book by its handle may doesn't work here is difficult job because you are frightened that the inside maybe not because fantastic as in the outside look likes. Maybe you answer can be Nanotechnology to Aid Chemical and Biological Defense (NATO Science for Peace and Security Series A: Chemistry and Biology) why because the amazing cover that make you consider about the content will not disappoint an individual. The inside or content is actually fantastic as the outside or even cover. Your reading sixth sense will directly assist you to pick up this book.

June Slater:

Many people spending their time by playing outside with friends, fun activity with family or just watching TV the entire day. You can have new activity to invest your whole day by examining a book. Ugh, do you think reading a book can actually hard because you have to bring the book everywhere? It fine you can have the e-book, bringing everywhere you want in your Cell phone. Like Nanotechnology to Aid Chemical and Biological Defense (NATO Science for Peace and Security Series A: Chemistry and Biology) which is keeping the e-book version. So , why not try out this book? Let's observe.

Ronda Powers:

A lot of reserve has printed but it is different. You can get it by world wide web on social media. You can choose the most effective book for you, science, comedian, novel, or whatever by simply searching from it. It is named of book Nanotechnology to Aid Chemical and Biological Defense (NATO Science for Peace and Security Series A: Chemistry and Biology). Contain your knowledge by it. Without making the printed book, it can add your knowledge and make anyone happier to read. It is most important that, you must aware about guide. It can bring you from one destination for a other place.
