The End of Heart Disease: The Eat to Live Plan to Prevent and Reverse Heart Disease

Joel Fuhrman

The End of Heart Disease: The Eat to Live Plan to Prevent and Reverse Heart Disease Joel Fuhrman

The *New York Times* best-selling author of *Eat to Live*, *Super Immunity*, *The End of Diabetes*, and *The End of Dieting* presents a scientifically proven, practical program to prevent and reverse heart disease, the leading cause of death in America - coinciding with the author's new medical study revealing headline-making findings.

Dr. Joel Fuhrman, one of the country's leading experts on preventative medicine, offers his science-backed nutritional plan that addresses the leading cause of death in America: heart disease. An expert in the science of food, Dr. Fuhrman speaks directly to listeners who want to take control of their health and avoid taking medication or undergoing complicated, expensive surgery - the two standard treatments prescribed today.

Following the model of his previous programs that have successfully tackled conditions from diabetes to dieting, Dr. Fuhrman's plan begins with the food we eat. He focuses on a high nutrient per calorie ratio, with a range of options for different needs and conditions. He shows us what to remove and what to add to our diets for optimum heart health, provides menu plans and recipes for heart-healthy meals and snacks, and includes helpful questions for doctors and patients.

By understanding heart disease and its triggers, Dr. Fuhrman gives us the knowledge to counterattack this widespread epidemic and lead longer, healthier lives.
