Natural Selection Bill Dare

James has made a science of trying to find out: what turns women on, and why? For example, there is sweet, pretty, vivacious Victoria, who he's pined after for years and finally tricked into loving him. He doesn't understand why she would be with him, a bit of a bore with an embarrassingly stalled career, when she can be with his best friend, Stefan. Stefan is clearly the superior mate.

Anyone who knows the first thing about natural selection could see that Stefan and Victoria belong together. So being it's only a matter of time before they realize it themselves. James decides it's only fair to help them along.
