The Male Patient in Aesthetic Medicine

Mauricio de Maio, Berthold Rzany

The Male Patient in Aesthetic Medicine Mauricio de Maio, Berthold Rzany are growing among core specialists in the aesthetic field, aesthetic medicine is advancing exponentially. The two authors of this text have worked together to provide a knowledgeable and practical approach to the male patient in aesthetic medicine. April 2009 Timothy Corcoran Flynn, M.D. Clinical Professor, University of North Carolina at Chapel Hill Medical Director, Cary Skin Center, Cary, NC 27608, USA Preface Men are different from women in many ways. Male aesthetics are different from female aesthetics. Most readers would agree with this statement. However, as the majority of our patients are still female, even cosmetic physicians may tend to treat their male patients like female patients. This can lead to dissatisfaction of the patient and consequently of the cosmetic physician. As the demand for aesthetic procedures in male patients is rising, there is a need for good textbooks on this subject. The aim of this book is to explain the specifics of the ageing process and facial aesthetics in men and to present the treatments available. In addition, common skin conditions and diseases that also influence the male aesthetic appearance will be discussed. The book written from the perspectives of a plastic surgeon and a dermatologist should enable us to treat our male patients better, and by that increase the satisfaction of our patients and, last not least, our satisfaction as the treating physicians.
