The Practice of Magical Evocation Franz Bardon

A new translation of Franz Bardon's second volume of *The Holy Mysteries*. In magical terms, the book is a practical guide to the proper evocation of and communication with spiritual, magical and divine entities. It is perhaps the only truly significant modern study of direct contact with the universal teachers -- the other major works in the field are products of the Medieval, Renaissance, and Reformation periods. But beyond that, there is a fascinating glimpse into a complete magical universe. Bardon outlines a totally new and original hierarchy of magic, from the spirits of the four elements to those of the various planets, and even to each degree of the zodiac. Included with the names and descriptions of the various entities are a collection of previously unknown magical sigils, as well as a true account of ancient astrology.
