Despite representing a majority of the college student population, a surprising lack of research has focused on the unique issues and needs of commuter students. This volume reviews the contemporary research and thinking about commuters. Topics include:

- theoretical perspectives and discussions of foremost topics and issues,
- specific examples for applying contemporary research with students of color, students with disabilities, and online students,
- perspectives for immediate work and strategic planning, and
- practical applications, recommendations, and suggestions for supporting commuter students.

The volume has four major sections: theory, profiles and issues, support and services, and general applications.

This is the 150th volume of this Jossey-Bass higher education quarterly series. An indispensable resource for vice presidents of student affairs, deans of students, student counselors, and other student services professionals, **New Directions for Student Services** offers guidelines and programs for aiding students in their total development: emotional, social, physical, and intellectual.
