*Worlds of Psychotic People* brings a fresh twenty-first century voice to the lives of those with serious psychological disorders, focusing on the manner in which psychiatric patients experience their subjective worlds. Based on ethnographic research gathered at the psychiatric hospital of Saint Anthony's in the Netherlands over a period of five years, it seeks to describe from the perspective of the mental patient some of the fears and hopes that mark an individual's encounter with the fixed reality-structures of a clinical mental ward.
