## **Marxism-Leninism on the National Question** Joseph Stalin, Vladimir Lenin

A collection of the most important writings from V.I. Lenin and J.V. Stalin on the national question written from 1904-1929.

Includes Lenin's "The Socialist Revolution and the Right of Nations to Self-Determination," Stalin's "Marxism and the National Question," and many others that are hard to find or out of print.

"We are for the secession of India, Arabia, Egypt, Morocco and other colonies from the Entente, because secession in this case would mean the liberation of those oppressed countries from imperialism, a weakening of the positions of imperialism and a strengthening of the positions of the revolution. We are against the secession of the border regions from Russia, because secession in that case would mean imperialist bondage for the border regions, a weakening of the revolutionary might of Russia and a strengthening of the positions of imperialism. It is for this reason that the Entente, which fights against the secession of India, Egypt, Arabia and other colonies, at the same time fights for the secession of the border regions from Russia. It is for this reason that the Communists, who fight for the secession of the colonies from the Entente, at the same time cannot but fight against the secession of the border regions from Russia. Obviously, secession is a question which must be decided in conformity with the specific international conditions and in conformity with the interests of the revolution."
