The National Strategy To Secure Cyberspace, February 2003 Bush

Our Nation' critical infrastructures are composed of public and private institutions in the sectors of agriculture,food,water,public health, emergency services, and government. Cyberspace is their nervous system, the control system of our country. Cyberspace is composed of hundreds of thousands of interconnected computers, servers, and routers that allow our critical infrastructures to work. Thus the health functioning of cyberspace is essential to our economy and national security
